

ADAM MESSAOUDI

Data Engineer | Business Intelligence Engineer | Data Analyst

Wolfsburg, Germany | +49 15510912077 | adam.messaoudi67@gmail.com | [LinkedIn](#) | [adam-messaoudi-portfolio](#)

PROFESSIONAL SUMMARY

Data Engineer experienced in ETL/ELT pipelines, data modeling, Microsoft Fabric Lakehouse, Power BI dashboards, SQL, Python automation, AI-assisted development, and business intelligence solutions. Skilled in transforming complex datasets into actionable insights and building scalable analytics platforms. Currently refining German language skills (B1 level) and motivated to contribute to international data engineering environments.

PROFESSIONAL EXPERIENCE

ZF Group

03/2025 – 09/2025

End-of-Studies Data Engineering Intern

Hanover, Germany

Project: Digital Monitoring Solution for ZF Global Workshop Network

- Architected and deployed scalable ETL/ELT pipelines using Microsoft Fabric and Salesforce, integrating 130,000+ records into a centralized Lakehouse environment.
- Constructed an enterprise Microsoft Fabric solution leveraging OneLake, Dataflows Gen2, and Semantic Models to automate end-to-end data transformation workflows.
- Engineered 5 interactive Power BI dashboards with standardized DAX measures, enabling self-service analytics for 4,600+ workshops in the global network.
- Automated Google Maps review data collection using Python and Selenium across 4,600+ workshops, enriching business analytics with clean sentiment data.
- Formulated an MLOps forecasting pipeline with MLflow tracking, streamlining model retraining and predictive performance analysis.
- Technologies:** Microsoft Power BI, Microsoft Fabric (OneLake, Dataflows Gen2), Python (Selenium, Pandas), MLOps, Excel.

Infraway Tunisia

06/2024 – 09/2024

Data Engineering Intern

Tunis, Tunisia

Project: Telecom Management Optimization Through Data-Driven Insights

- Analyzed 10.01M+ telecommunications call records across 43 attributes via EDA to uncover key network traffic trends.
- Streamlined ETL workflows by building automated Talend staging jobs, reducing data processing time by 45% and enabling daily dashboard refreshes.
- Designed 2 Power BI dashboards (Service Quality & Profitability) for Sales Managers and Service Operators, optimizing 63 B2B accounts.
- Trained Exponential Smoothing forecasting models in Python (Pandas, Statsmodels) to predict monthly call volumes and support capacity planning.
- Technologies:** MySQL, Talend, Power BI, Python, Machine Learning (Statsmodels, Scikit-Learn), SQL.

PGS International

06/2023 – 09/2023

Business Intelligence Intern

Ben Arous, Tunisia

Project: Data-Driven Inventory Optimization Platform for Oil Depots

- Centralized oil depot inventory data across 5 depot locations into a PostgreSQL data warehouse using automated Talend ETL workflows.
- Visualized real-time stock levels and 10+ operational KPIs across 3 Power BI dashboards to track inventory performance.
- Orchestrated Python web scrapers (Selenium, BeautifulSoup) parsing market data across 4 target industry sources daily to enrich analytics.
- Optimized 10+ backend REST API routes of a Flask analytics platform to support data-driven inventory management.
- Technologies:** Talend, PostgreSQL, Power BI, Python, Angular, Flask, Machine Learning, Web Scraping (Selenium, BeautifulSoup).

Orange Tunisia

06/2022 – 09/2022

Data Analyst Intern

Tunis, Tunisia

Project: Sales Performance Tracking Application

- Pioneered an interactive Power BI sales tracking dashboard to monitor monthly customer sales performance across key revenue indicators.
- Processed unstructured JSON sales logs using Python and MongoDB, automating data cleaning pipelines for 5 core product lines.
- Refined MongoDB query aggregations and Power BI data models to accelerate dashboard refresh times and enable real-time insights.
- Delivered 10+ weekly analytical sales reports, empowering commercial leads to optimize revenue forecasting.
- Technologies:** Power BI, Python, MongoDB, Data Visualization, MongoDB Aggregation.

TECHNICAL SKILLS

- Data Engineering & BI:** Microsoft Fabric (OneLake, Lakehouse, Dataflows Gen2, Pipelines, Semantic Models), Power BI (Service, Power Query, DAX), ETL/ELT, Data Pipelines, Data Governance, Data Warehousing, Data Modeling, Dimensional Modeling, Data Integration, Data Architecture, Data Quality, Data Validation, Data Orchestration, KPI Reporting.
- Machine Learning & Analytics:** Machine Learning, Statistical Analysis, Predictive Modeling, Time Series Forecasting, MLOps, Microsoft Azure (Azure Storage, Azure SQL), Salesforce, Microsoft Dynamics 365, Azure Entra ID, SAP.
- Generative AI & AI Tools:** Microsoft Fabric Copilot, Power BI Copilot, Azure OpenAI, GitHub Copilot, AI-assisted Development, Text-to-SQL.
- Data & Database Technologies:** PostgreSQL, MySQL, Oracle SQL, Microsoft SQL Server (SSIS, SSMS, SSRS), MongoDB, SQL, CSV, JSON, YAML.
- Programming & Tools:** Python (Pandas, Flask), Git, GitHub, Docker, Jenkins, CI/CD, Linux, REST API Integration, OAuth, Excel.
- Data Collection & Automation:** Web Scraping (Selenium, BeautifulSoup), Data Extraction, Data Cleaning, Data Enrichment, Workflow Automation.
- Methodologies:** Agile/Scrum, Requirements Analysis, KPI Development.

EDUCATION

ESPRIT School of Engineering – Tunisia

Graduated: 10/2025

Engineering Degree in Computer Science (Master's Equivalent)

Schmalkalden University of Applied Sciences – Germany

10/2024 – 09/2025

Exchange Program in Computer Science

Borj Cedria High School – Tunisia

08/2020

Baccalaureate in Experimental Sciences

CERTIFICATIONS

SAP Solution Implementation – SAP | Coursera

11/2024

Microsoft Azure Cloud Services – Microsoft | Coursera

10/2024

MLOps (Machine Learning Operations) – Duke University | Coursera

10/2024

Talend Data Integration – Talend | Coursera

10/2024
