PROFESSIONAL SUMMARY

Data Engineer with an engineering degree in Computer Science (Master's equivalent) and four hands-on experiences across Tunisia and Germany. Passionate about turning raw data into reliable pipelines and clear dashboards, with a strong interest in AI-driven analytics, and looking to join an international data team.

PROFESSIONAL EXPERIENCE

Data Engineer – EDPS Aero/Plus | 03/2026 – Present
Ben Arous, Tunisia (Remote from Germany)
- Build ETL pipelines and Power BI dashboards centralizing business KPIs for management reporting.
- Engineer an automated pipeline monitoring 4 partner catalogues (Socomore, Sherwin Babbco, Fujifilm, SIUI) to detect new products, duplicates and changes.
- Implement a validation workflow with email alerts and a review interface before website publication.
  Stack: Microsoft Fabric, Power BI, Python, Pandas, BeautifulSoup, MySQL, Next.js, SMTP

Data Engineering Intern (End-of-Studies Project) – ZF Group | 03/2025 – 09/2025
Hanover, Germany | Project: Enterprise Data Platform & Predictive Analytics for Global Workshop Networks
- Architected scalable ETL/ELT pipelines (Microsoft Fabric, Salesforce) integrating 130,000+ CRM records into a Lakehouse, and automated Google review collection for 4,600+ workshops.
- Delivered 5 Power BI dashboards with a Workshop Health Score (0–100) and real-time audit tracking with alerts for regional managers.
- Developed an NLP data assistant (spaCy, OpenAI API) for conversational KPI queries and an ML forecasting pipeline (MLflow) to predict workshop network evolution.
  Stack: Microsoft Fabric (OneLake, Dataflows Gen2, Semantic Models), Salesforce, Power BI (DAX), Python (Pandas, Selenium, spaCy, Scikit-Learn, XGBoost), OpenAI API, MLflow, Flask, SQL

Data Engineering Intern – Infraway Tunisia | 06/2024 – 09/2024
Tunis, Tunisia | Project: Telecom Management Optimization Through Data-Driven Insights
- Analyzed 10M+ call records (43 attributes) via EDA to uncover network traffic trends.
- Built automated ETL staging jobs, cutting processing time by 45% and enabling daily dashboard refreshes.
- Designed 2 Power BI dashboards for 63 B2B accounts; trained Exponential Smoothing models to forecast call volumes.
  Stack: Talend, MySQL, Power BI, Python (Pandas, Statsmodels), SQL

Business Intelligence Intern – PGS International | 06/2023 – 09/2023
Ben Arous, Tunisia | Project: Data-Driven Inventory Optimization Platform for Oil Depots
- Centralized data from 5 oil depots into a data warehouse via automated ETL workflows; built 3 Power BI dashboards (10+ KPIs, Row-Level Security).
- Built daily web scrapers (4 sources) and optimized 10+ REST API routes of an analytics platform.
  Stack: Talend, PostgreSQL, Power BI, Python (Selenium, BeautifulSoup), Flask, REST APIs

SKILLS & LANGUAGES

Data Engineering, BI & ERP: Microsoft Fabric (OneLake, Lakehouse), Power BI (DAX, Power Query, RLS), Talend, Airflow, ETL/ELT, Data Modeling, Data Warehousing, SAP BW, Dynamics 365, CRM (Salesforce)

Programming & Databases: Python (Pandas, PySpark, SQLAlchemy, Selenium, BeautifulSoup, Flask), SQL (PostgreSQL, MySQL, MS SQL Server, Oracle), MongoDB, REST APIs

AI & Machine Learning: Machine Learning, Time Series Forecasting, Scikit-Learn, MLflow, NLP (spaCy), OpenAI API, Azure OpenAI, Generative AI

Cloud & Tools: Azure (Storage, Azure SQL), Docker, Git, CI/CD, Agile/Scrum

Languages: German B1 (in progress), English C1, French C1, Arabic (native)

CERTIFICATIONS

SAP Solution Implementation**;** Microsoft Azure Cloud Services**;** MLOps (Machine Learning Operations)**;** Talend Data Integration.

EDUCATION

Engineering Degree in Computer Science (Master's equivalent) – ESPRIT School of Engineering, Tunisia | 10/2025

Exchange Program in Computer Science – Schmalkalden University of Applied Sciences, Germany | 10/2024 – 09/2025

Baccalaureate in Experimental Sciences – Borj Cedria High School, Tunisia | 08/2020
